

# Iredell County 4-H Clover Connection

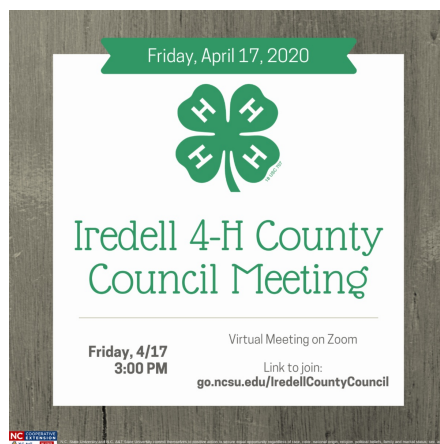

Visit our Website

Hello 4-H family! I hope everyone is doing alright during these crazy times. We will get through this together and it will be over... and when it is, we are so excited to be able to see your faces again! If you feel so inclined, [please fill out this Iredell County 4-H COVID-19 Needs Survey](#). Any feedback will help us help you!

## News & Events

### County Council Meeting this Friday, 4/17

We are having a virtual County Council meeting this Friday, 4/17 at 3:00 PM on Zoom. Use the link [go.ncsu.edu/IredellCountyCouncil](http://go.ncsu.edu/IredellCountyCouncil) to join.

This County Council meeting is open to anyone who would like to participate!

### Embryology

Since we were unable to have our embryology program in our 2nd grade classrooms, we made our 2020 program virtual! Using a Facebook group, we incubated 10 eggs and ended up with 6 adorable chicks! Our 2nd grade families and teachers thoroughly enjoyed this experience. While it wasn't the same as the real thing, it brought some joy to our stay-at-home order!

### Presentation Contest

This year's presentation contest will be held via video! An email with updates went out on April 14th. If you or your youth are interested and did not receive the email, please let me know.

This is a great year for presentation first-timers to give it a try!

### 4-H Camp

While 4-H camp unfortunately can't happen in person, they are having virtual camp the week of June 22-26! Registration information will be released soon.

### 4-H Daily Spark Lessons

There are daily lessons on the [North Carolina 4-H Facebook page](#)! Topics include animal science, plant science, public speaking, and more! The lessons go live at 10:30 AM each weekday and they show up right at the top of the Facebook page. The rest of this week's schedule is in the photo, but check either that Facebook page or ours for upcoming lessons.
